

THE MEADOWS RACETRACK AND CASINO MEDICATION POLICY ACCEPTANCE

- The Meadows Racetrack and Casino may not accept entries from owners, trainers, etc. whose license(s) are currently suspended or under appeal in Pennsylvania or any other jurisdiction, and/or those with a medication positive awaiting adjudication.
- A Trainer that has been found to have used erythropoietin (EPO) or any Class I drug as defined by the Association of Racing Commissioners International, Inc. while racing at The Meadows Racetrack and Casino may receive a lifetime ban from racing at The Meadows Racetrack and Casino following the full procedures or adjudication.
- A suspended trainer's horses may not be transferred to either his or her spouse, member of the immediate family, assistant, employee or household member.
- A positive test may automatically void the trainer's right to enter at The Meadows Racetrack and Casino and a new racing application must be filled out, submitted, reviewed, and approval granted in order for the trainer to be accepted again.
- A second positive test and/or positive blood gas within 12 months or three positive tests and/or blood gas within a two-year period may automatically prohibit the trainer from entering horses at The Meadows Racetrack and Casino.
- Any horse with a pre- or post-race blood gas test which returns a positive result will not be permitted to race for a period of thirty consecutive (30) days. In the event that the horse races in a different jurisdiction following the positive test and before the completion of the 30-day suspension, upon returning to The Meadows Racetrack and Casino, the horse must serve the remainder of the 30-day suspension before being allowed to re-qualify. In any event, every horse testing positive must also re-qualify following the 30-day suspension period before being allowed to race.
- The Meadows Racetrack and Casino reserves the right to amend, change, or modify this medication policy for any reason at any time, and without prior notice.
